DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Arnheim on July 14, 2010.

The application has been amended as follows:

(1) in the specification prior to the first paragraph insert the following sentence: --This application is the U.S. National Stage of PCT/PL03/00132, filed December 1, 2003, which claims priority from P.361490, filed July 29, 2003.--

(2) in claim 10, line 5, the phrase "distal to the longitudinal axis" is replaced by --facing away from the longitudinal axis--.

Allowable Subject Matter

Claims 8-27 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or suggest a direct connection between the at least one return spring and the arm of the push button in combination with the other features recited in the claims.

Art Unit: 3731

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
